**SUBJECT:** Grand Chapter of Virginia, Special Project: Project Lifesaver International

## **What is Project Lifesaver?**

Founded in **1999** in Chesapeake, Virginia, **Project Lifesaver** is a 501(c)(3) nonprofit organization that partners with local law enforcement, fire/rescue teams, and caregivers to quickly locate and return to safety individuals who are at risk of wandering due to cognitive conditions such as Alzheimer's, autism, and dementia. This innovative program provides peace of mind to families and caregivers during highly stressful times by utilizing specialized tracking technology that saves lives and restores hope.

## **Why Support This Cause?**

Many of us know someone who has been impacted by a cognitive disorder or have loved ones within our areas who are affected. The emotional toll these conditions place on caregivers is immense. **Project Lifesaver** operates in over **155 communities** in Virginia, offering lifesaving services. By supporting this program with donations and efforts to raise awareness, we can help save lives and provide comfort to families who need it most.

## **How Can You Help?**

Become a **“Lifesaver”** today. No contribution is too small, and all are deeply appreciated. For those who can donate **\$500 or more**, your generosity will be recognized on our website and in our annual Directory. Every dollar raised will stay within Virginia, directly benefiting local families.

**Donations may be sent to:**
